CECE Health & Safety Policy Manager

Martina Griffo

Compliant &
Not-Compliant
Construction
Machinery

Enhancing Market Surveillance

- **Current challenges:**
 - Older **second-hand** machinery not meeting European standards
 - **Grey imports** and non-compliant machinery from certain regions
 - Engaging with **authorities**
- Focus on **control at points of entry**, such as ports and customs
- **Common goals**
 - Fair and competitive EU internal market
 - Health and safety of end-users

Future Actions and Collaborations

*Let's build stronger **bridges** between manufacturers, associations & market surveillance authorities*

Join forces to expand our collective reach and scope

→ Happy to share the **master file** if you would like to preform a similar task

Let's keep the conversation alive:

→ Invite us to **your roundtables**, events & debates!

→ We would also be happy to organise **seminars**

Distribute brochures – empower market surveillance with the right tools
