

Value chain *Plus* Excellence

INVITATION

Dear Sir / Madam,

Greetings from the German Engineering Federation (VDMA)

India's manufacturing exports for FY22 reached an unprecedented USD 418 billion, an overall growth of more than 40% compared to the USD 290 billion from the previous year. Manufacturing is emerging as an integral pillar in the country's economic growth thanks to the performance of key sectors like automotive, engineering, chemicals, pharmaceuticals, and consumer durables. **India has the capacity to export goods worth USD 1 trillion by 2030 and is on the road to becoming a major global manufacturing hub.** With 17% of the nation's GDP and over 27.3 million workers, the manufacturing sector plays a significant role in the Indian economy. Through the implementation of different programs and policies, the Indian government hopes to have 25% of the economy's output come from manufacturing by 2025. India now has the physical and digital infrastructure to raise the share of the manufacturing sector in the economy and make a realistic bid to be an important player in global supply chains. A globally competitive manufacturing sector is India's greatest potential to drive economic growth and job creation this decade. Due to factors like power growth, long-term employment prospects, and skill routes for millions of people, India has a significant potential to engage in international markets.

It is heartening to inform you that in pursuit of the creating comprehensive awareness on the importance of good quality sourcing from India, **VDMA India** along with our esteemed partners: **Udyen Jain & Associates, Blue Ocean Global, Deffree Engineering (P) Ltd and Value Chain plus Excellence India Pvt Ltd** cordially invite you to this pertinent web seminar where we would have speakers from prominent organizations in India who will deliberate on their range of products offered and their application, manufacturing setup, production capacity, quality standards and certification available with them.

We would like to offer this web seminar as a knowledge sharing session for **European manufacturing and engineering companies** from various industries like **Steel & Metallurgy, Mechanical Power Transmission, Energy, Machine Tools, Textile, Construction equipment & Infrastructure industry, Mining, Ceramic, Fluid Power, Robotics & Automation, Plastic, Pumps & Valves, Process & chemical industry, Food processing & Packaging** to name a few.

VDMA WEB SEMINAR ON

QUALITY SOURCING SOLUTIONS FROM INDIA FOR EUROPEAN MANUFACTURERS

DATE – THURSDAY, 22ND JUNE 2023

TIME – 03:00 PM – 04:30 PM (IST) / 11:30 AM – 01:00 PM (CET)
